

Built by operators who understand AI, compliance, and execution

The people behind CompliVibe.

01

Adarsh Sharma

Founder & CEO

IIT Patna Google Developer Ex IBM Ex Databricks Intern 9+ Open Source Projects

Final-year B.Tech student in Computer Science & Mathematics at IIT Patna, graduating August 2026. Founder of CompliVibe and former CEO of ValersAI, with roughly two years of production ML engineering experience building voice AI, RAG pipelines, and agentic workflows. Leads product, engineering, and company strategy.

02

Saransh Jha

Co-Founder, COO & CFO

Allahabad University Genpact Concentrix 10+ Years Experience

Co-founder and operating partner with over a decade in senior operations and compliance execution roles, including Genpact and Concentrix. Drives go-to-market, fundraising operations, and day-to-day company building alongside the founder.

03

Suraj Kumar Jha

Data / ML Intern

IIT Patna Python SQL Machine Learning

B.S. Computer Science student at IIT Patna (2024–2028), with a strong foundation in data analysis, SQL, and machine learning, including certifications in Statistics, SQL & Relational Databases, and Python. Supports CompliVibe's data and ML workstreams, with a long-term interest in AI/ML research.

WHY THIS TEAM

Technical Depth

Production ML engineering experience and a hands-on builder culture, from RAG pipelines to agentic workflows.

Operational Discipline

A decade of enterprise operations and compliance execution at Genpact and Concentrix, applied to startup speed.

Research Pipeline

IIT Patna talent feeding the data and ML roadmap, with a long-term eye on AI research depth.

Hiring now: 2 compliance associates, 1 backend engineer, 1 frontend engineer, plus additional interns — to ship the v4.0 platform ahead of the August 2026 EU AI Act deadline.
